

Emissions Management

Cooper-Standard Automotive Fluid Systems is one of the world's leading vertically integrated EGR system suppliers. Our innovative, patent-protected portfolio comprises electric and pneumatic EGR valves, EGR coolers and tubing for light, medium and heavy-duty applications. The synergy of producing our own EGR valves enables us to develop integrated EGR modules and systems from one source.

Features & Benefits

- ✓ High grade stainless steel manufacturing
- ✓ EGR cooler with internal self-cleaning to maintain life performance
- ✓ Internal bypass cooler function
- ✓ DC motor high force actuated EGR valves
- ✓ Good antistick performance of EGR valves
- ✓ EGR valve for hot side application
- ✓ Optimized design to suit packaging requirements
- ✓ System integration of EGR modules
- ✓ In-house prototype and tooling capabilities

Product Portfolio

- ✓ EGR Modules
- ✓ EGR Bypass Cooler
- ✓ EGR Valves
- ✓ EGR Valve Assemblies
- ✓ EGR Tube
- ✓ DPF Lines
- ✓ Secondary Air Tubes
