

Global Policy	Policy on Global Human Rights	
	LCPOL-16-GL	REV: A

PURPOSE:

This policy reinforces our values, policies, and practices and acknowledges internationally recognized human rights. This policy is guided by international human rights principles encompassed by the Universal Declaration of Human Rights, including those contained within the International Bill of Rights and the International Labor Organization’s 1998 Declaration on Fundamental Principles and Rights at Work. It is designed to supplement and not amend the Company’s Code of Conduct.

SCOPE:

This Policy applies to the Company globally, including all of its worldwide subsidiaries, affiliates, partnerships, ventures and other business associations that are effectively controlled by the Company. All Company directors, officers, and employees, including part-time, temporary, and other personnel working for or on behalf of the Company, are subject to this Policy.

Our suppliers, contractors and other business partners with whom we do business, are expected to adhere to our standards, including, but not limited to, human rights and labor practices. These expectations are set forth fully in our [Supplier Code of Conduct](#).

RESPONSIBILITIES:

- All directors, officers, and employees of the Company are responsible for ensuring compliance with this policy and applicable law.
- The Global Ethics and Compliance Committee (“GECC”), including but not limited to the Chief Compliance Officer and Chief Human Resources Officer, is responsible for enforcing this Policy.
- All individuals governed by this policy must report suspected violations of this policy or the law by the Company or by any fellow employee or third party (refer to the Reporting Section at the end of this policy). As permitted by law, an employee’s failure to report known or suspected wrongdoing of which the employee has knowledge may, by itself, subject that employee to disciplinary action. The Company will not permit retaliation of any kind against any employee who in good faith reports suspected misconduct.

POLICY:

Child Labor, Forced Labor, Human Trafficking and Modern Slavery:

Forced labor and modern slavery in all forms, including child labor and human trafficking, is prohibited in our business and in our supply chain.

Global Policy	Policy on Global Human Rights	
	LCPOL-16-GL	REV: A

Child labor is employment of persons younger than the legally permissible age for work of the location/geography in which the work is carried out, in any case not younger than 15 years of age unless an exception is expressly supported by international conventions, including regulations related to training or apprenticeship programs for students younger than 15.

We do not tolerate any improper worker treatment, such as the exploitation of children, physical punishment, abuse or involuntary labor. No employee should tolerate any form of unacceptable treatment of workers in our operations or facilities or in our supply chain.

We act with integrity in all our business transactions and ensure that forced labor does not take place anywhere within our business transactions or relationships, including our supply chain. We make sure to include language that prohibits all types of forced labor whenever we enter agreements with suppliers and business partners and we monitor these relationships and speak up when there is an actual or suspected violation of this policy or something doesn't seem right.

Diversity and Inclusion:

Our world-class team thrives because we each bring our own unique experiences and perspectives to our work. Diverse talent is one of our core values, and diversity of thought makes our company stronger. We provide equal opportunities to our employees and prohibit unlawful discrimination and harassment of any kind. We make employment decisions based on skills and experiences. This applies to all terms and conditions of employment, including but not limited to hiring, placement, promotion, termination, layoff, recall, transfers, leave of absence, compensation, and training. No one shall be treated differently because of how he or she looks, where he or she comes from, his or her religion or other characteristic protected by applicable law, including but not limited to gender. We are inclusive and appreciate the thoughts and opinions of coworkers who may have experiences and perspectives different from our own. And we work with suppliers who value diversity and inclusion.

Employment Status:

We employ only workers who are legally authorized to work in their location and facility and are responsible for validating employees' eligibility to work through appropriate documentation.

Freedom of Association and Collective Bargaining:

We support freedom of association and the right to collective bargaining and expect our suppliers to do the same. We recognize and respect the rights of employees to associate or not to associate with any group, as permitted by law and in accordance with all

We provide a safe, respectful, clean and healthy work environment and we maintain a continuous improvement program related to workplace safety. We do not tolerate violence, threats of violence, or physical intimidation in the workplace. We depend upon our employees to be responsible, to look out for their coworkers's safety, and to support our core value of maintaining a total safety culture. We expect the same standard of safety from our suppliers.

Wages and Benefits:

We provide employees with compensation that includes wages, overtime pay, premium pay and benefits that meet or exceed the legal minimum standards. We pay employees equal pay for equal work without discrimination and we pay employees in a timely fashion and make no deductions from pay for disciplinary reasons.
